RE: Application No. 10/655,112
Filing Date: 9/04/2003
Applicant: Darren P. Chermack

Petition for re-consideration of the holding of abandonment
Under CFR37.1.137

Statement of the case

Original application for utility patent was submitted on September 4, 2003 with the appropriate filing fee. In September, 2004, a contact was made to the Patent Office to check on the status of the application, at which time it was learned that the application was still "in que" and awaiting an initial review. Ten months later in July 2005, I received a notice that the patent application in question had been abandoned for failure to respond to a "Notice to File Missing Parts". This recent letter dated July 14, 2005 is the only written correspondence received from the Patent Office since acknowledgement of receipt of the original application. No letter or any request for any drawings, or any other correspondence from the Patent Office was received and therefore no reply was submitted.

I respectfully request the revival of the original patent application numbered 10/655,112 and look forward to an initial examination of said application.

Sincerely,

Darren P. Chermack
